Dear friend,

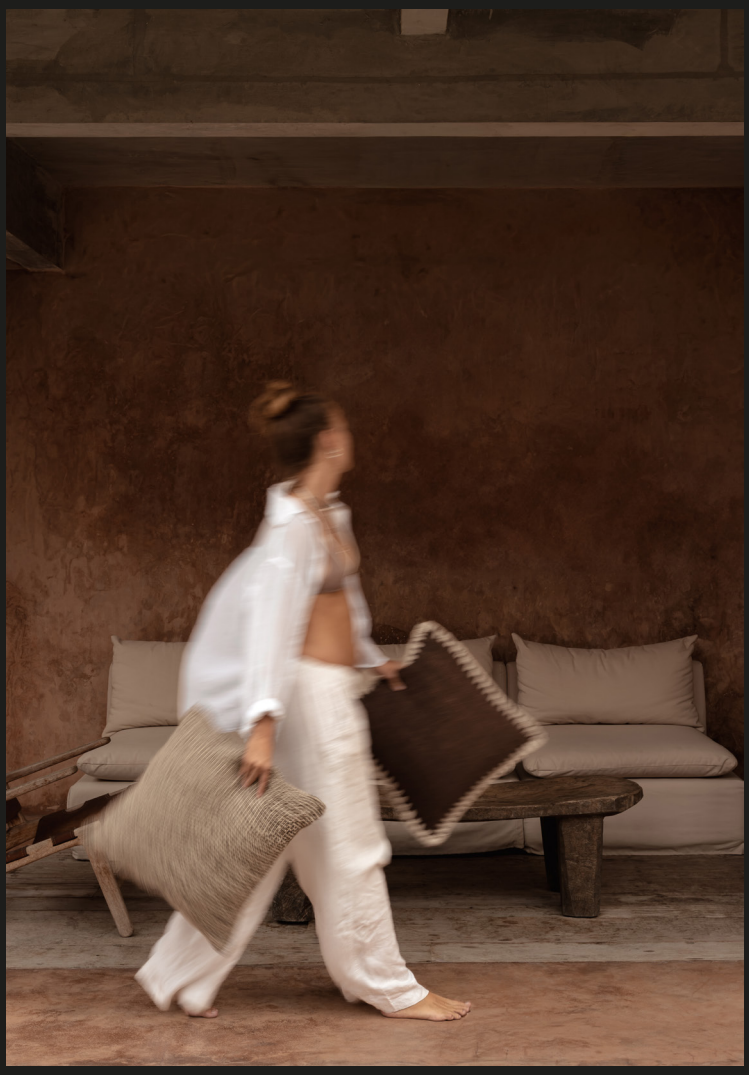
Welcome to the world of Bazar Bizar — a place where design is a dialogue between craft and life, travel and culture. Each piece carries warmth, intention and the subtle traces of those who made it.

Design, to us, is not only about what we create, but it's about how it makes you feel.

Therefore, we believe a home should be more than walls and furniture. Not perfect, but real. It should feel personal and be a reflection of joy, warmth and authenticity. It should hold moments, memories and materials that age beautifully over time. That's why we design collections that bring people together and make every space feel alive.

This catalogue reflects those ideas. Each page invites you to slow down and to rediscover beauty in its purest, most human form.

With love,
The Bazar Bizar Family



Designed for life, inspired by the world

Collection (392)

Every story begins with curiosity. For Bazar Bizar, it started with a desire to see the world, to understand how people live, what they create, and why their traditions matter.

What began as a journey soon became a way of life. Nearly a decade ago, founders Eddy Roothaert and Pascale Pelsmaekers sought to turn their deep passion into an interior and lifestyle brand. Guided by their background in hospitality, they began creating pieces that make a space feel alive and human.

By collaborating with artisans and local communities across the world, Bazar Bizar found a rhythm between nature and culture, between raw material and refined form.

Since then, Bazar Bizar has grown into a distinctive label of its own, known for its curated collections of homeware and lifestyle products. Each piece reflects a refined yet soulful aesthetic, blending raw and refined, tradition and modernity, handmade and contemporary.

This harmony of contrasts remains at the heart of everything we do. Our pieces are made to be lived with, to gather memories, and to remind us that beauty, at its truest, feels both familiar and free.

At Bazar Bizar, we believe that contrast creates harmony. Our name itself carries this dual spirit: *Bazar* speaks of warmth, tradition and human connection, while *Bizar* whispers of surprise, edge and reinvention.

Our philosophy is rooted in what we call the *Art of Connection*, a belief that design can unify cultures, stories and ways of living. Our work is defined by this bridging of worlds: bringing together modernity and tradition, luxury and sustainability, simplicity and complexity.

We see every creation as part of a conversation that goes beyond design. It connects the hands that make with the homes that receive, the past with the present and the local with the global. Through this dialogue, beauty becomes more than visual; it not only enhances a space but also connects people to a story, a culture and a purpose.

Together in Craft

Bazar Bizar remains, at its heart, a family business built on relationships, respect and trust. The hands that craft our pieces are an extension of that family: small workshops, home industries and local communities that keep ancestral skills alive through patience, talent and care.

We believe that sustainability begins with people. That's why we collaborate directly with artisans under fair conditions, always ensuring fair wages, safe workplaces and ethical labour practices. Each partnership is long-term, built on dialogue, dignity and a shared passion for quality.

Craft that Lives

Our craft is a living language. Every piece is shaped by hand, carrying the subtle marks of its maker. Every line and surface holds a sense of humanity, a truth that no machine could ever repeat. In the balance of precision and imperfection, beauty finds its calm.

Design with Purpose

We believe that good design grows slowly. It should feel timeless, grounded and kind to the world that inspires it. Therefor each piece is made to endure and to evolve with those who live with it; a quiet reflection of care, presence and lasting beauty.

Respect for Nature

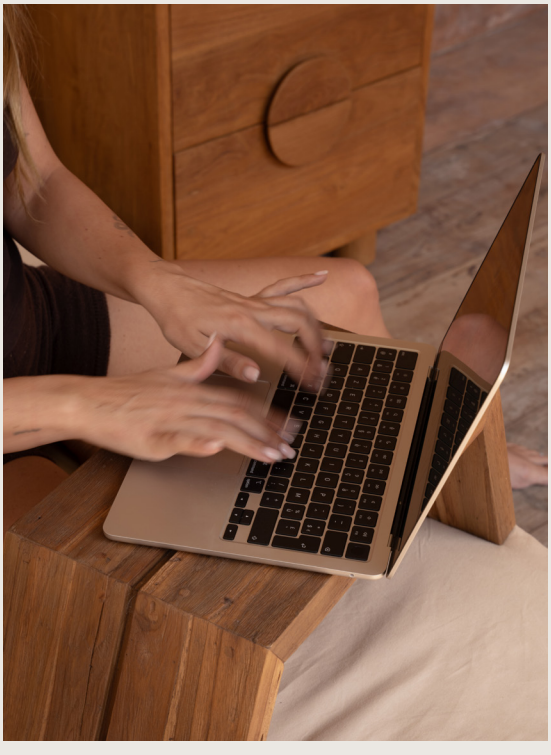
Our commitment extends to the materials we use. We continuously work to source more responsibly, using certified wood, ethically collected shells and other natural materials whenever possible. We will always do this with respect for the rhythm between people, craft and nature.

For us, sustainability is a continuous commitment to keep caring, learning and creating with integrity.

Partner Program

We believe that good design grows through collaboration. Therefore our Partnership Program is designed to make working with Bazar Bizar seamless. It provides you as a professional with the tools and support to create inspiring spaces with confidence and ease.

Whether you manage a studio, curate a concept store or lead a larger project, our system is built to adapt; supporting your process, scaling with your needs and making every step feel effortless.



Beyond the Collection

Some projects call for something more personal. Our creative division, Studio Bizar, offers bespoke design services and material expertise for residential, hospitality and retail spaces.

From custom furniture and lighting to complete interior concepts, our team collaborates with architects and designers to create environments filled with character and intention.

Collection 2026

Refined simplicity, reimagined with intention.

The year 2026 marks a new chapter for Bazar Bizar; a moment to pause, to look inward, and to rediscover what truly matters. For us, this season is not about adding more, but about refining our essence and designing with a deeper sense of purpose.

Over the years, our world has been shaped by countless journeys, cultures and collaborations. Yet at its heart, Bazar Bizar remains devoted to finding beauty in the ordinary, about seeing the *bizar* within the *bazar*.

This collection is a reflection of that pursuit. We move away from excess and closer to what truly matters: simplicity, intention and imagination. Everyday pieces are reinterpreted to invite touch, hold rhythm and feel both familiar and new.

By doing so, our world has become softer, more serene and refined. The familiar Coastal and Mediterranean atmospheres that once defined us have softened into shadow, revealing a more universal and timeless sense of home.

Dining

To share a meal is to share a moment. Our dining collection celebrates warmth and connection through hand-glazed tableware, woven linens and wooden accents. Designed for everyday beauty, these objects remind us that nourishment is both a craft and an act of love.

Textile

Textiles shape how a home feels; they soften, warm and hold. Each handwoven carpet, cushion, and plaid in this collection is crafted with care, blending texture and tone into quiet harmony. The result is beauty that can be felt as much as it can be seen.

Fashion

Our fashion collection brings craftsmanship into the everyday: handwoven bags, sculptural necklaces and timeless hats designed with care. Each piece is made to be lived in, to travel with you, and to hold the warmth of the hands that shaped it. Beauty here is personal, grounded and real.

Lighting

Light has its own language. It speaks through shadow, reflection and the calm that settles at the end of the day. Through woven textures, this collection explores how craft shapes the atmosphere of a space. Each lamp carries warmth and softness, creating a quiet sense of stillness in the home.

Furniture

Furniture defines how we move, rest and gather. In our collection, every design is made to support those rhythms; soft in form, natural in texture and enduring in presence. Together, they create harmony within the home, where beauty feels effortless and deeply human.

Objects

Design that moves beyond function into emotion.

While our *Living* range forms the foundation of our brand, *Objects* goes beyond. This range offers a curated selection of one-of-a-kind and handcrafted pieces. Each one is made with character and intention, adding not just depth and texture, but also a story that lives within your space.
