TULUM
by Eugeni Quitllet
50
This collection balances natural materials and advanced technology in an elegant, contemporary harmony.

Serra

Serra invites us to experience the outdoors lounging, barefoot, with nonchalance and refinement. Like a banana leaf or a chistera, its enveloping structure of taut ropes cradles soft, sensual cushions, offering a haven of relaxation.

With its fluid forms, it is equally at home *dans la forêt primaire*, adding a touch of modernity to the dry-stone walls of a Corsican villa as well as softening the edges of contemporary architecture.

Serra, the natural easy chic chill out place.

Gum

A collection that traces a subtle dialogue between structure and comfort, where a continuous tubular line draws the essential gesture that envelops and supports each piece. The warmth of the upholstery and the geometric purity of the tables create a serene balance, evoking a timeless elegance that dwells between architecture and landscape.

Ramón Esteve

Fusta, Gum, Luna, Mel, Posidonia and The Factory

Ramón Esteve Cambra is Architect and Designer; arising one facet as a consequence of the other. In 1991, he founded Ramón Esteve Estudio with the premise that architecture is a global discipline. His training as an architect became a transversal vision where Architecture and Design form one single concept, almost inseparable, both generated under the same laws and the same design premises. Its aim is the development of complete environments through a mutual interaction between both disciplines, so design acts on architecture and vice versa and the importance and difficulty of both disciplines are equally acknowledged.

Marcel Wanders

Suave

Born in Boxtel, Wanders graduated cum laude from the Hogeschool voor de Kunsten Institute of the Arts Arnhem in 1988 after being expelled from the Design Academy Eindhoven. In 2000 he opened his studio in Amsterdam, gaining attention in 1996 with his Knotted Chair, which paired high tech materials with ‘low tech’ production methods and in 2001 Wanders co-founded the design label Moooi., of which he is co-owner and art director. Marcel Wanders’ chief concern is bringing the human touch back to design, ushering in what he calls design’s ‘new age,’ in which designer, craftsperson and user are reunited. In his process, Marcel Wanders defies design dogma, preferring instead to focus on holistic solutions rather than the technocratic. In this universe, the coldness of industrialism is replaced instead by the poetry, fantasy and romance of different ages, vividly brought to life in the contemporary moment.

Eugeni Quitllet

Tulum

The Catalan designer Eugeni Quitllet was born on 17th April 1972 in Ibiza. He graduated from ‘La Llotja’ art school in Barcelona. Through his creative vocabulary he exceeds simple relationships between function and style unveiling innovative objects. Between drawing, sculpture and contemporary archaeology, Quitllet literally reveals silhouettes hidden in the material, extremely visual skeletal objects elegantly master fullness and emptiness often with a touch of humour: the Masters chair combines the 3 contours of legendary seats by Eames, Saarinen and Jacobsen, the K Ray lamp is an organic UFO, a network of veins hol – lowed out of the material which results in an object suspended in a frame, his signature method prevalent naturally in several of the designer ’ s projects: the Shine vases, the Light Air lamp, the 0’Clock lamp, without forgetting the O Ring watch, a hole in time in the true sense, best seller of the brand Fossil modernising watchmaking codes. Eugeni Quitllet is a design world freak capable of devouring the whole of our environment in his own way to serve it up to us transformed.

Jean-Marie Massaud

Milos, Pasadena and Serra

Since the beginning of his career (a 1990 graduate of Paris’ ENSCI-Les Ateliers, Paris Design Institute), Jean-Marie Massaud has been working on an extensive range of works, stretching from architecture to objects, from one-off project to serial ones, from macro environment down to micro contexts. Major brands such as Axor, Cassina, Christofle, Poliform, Toyota have solicited his ability to mix comfort and elegance, zeitgeist and heritage, generosity and distinction. Beyond these elegant designs, his quest for lightness – in matters of essence – synthesize three broader stakes: individual and collective fulfillment, economic and industrial efficiency, and environmental concerns. “I’m trying to find an honest, generous path with the idea that, somewhere between the hard economic data, there are users. People.”
